LabelMax 4000

Driver Installation Guide

Quick & Easy Setup for Windows PCs

Welcome

This mini guide helps you install the LabelMax 4000 printer driver on your Windows computer quickly and safely.

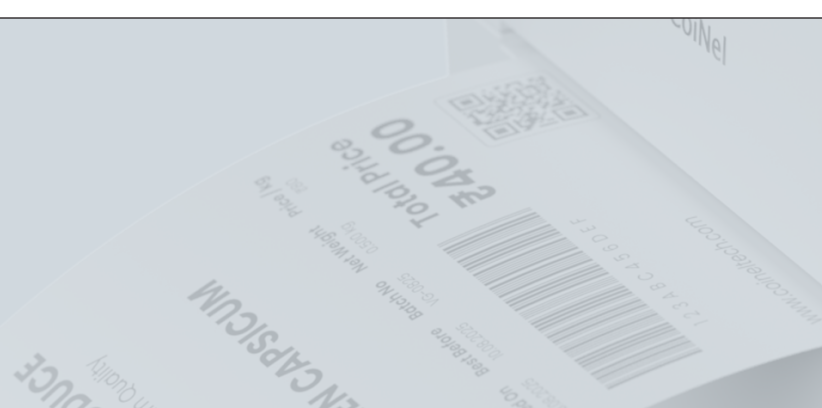

Follow the steps in order for a smooth installation experience.

System Requirements

- Windows 10 / Windows 11
- LabelMax 4000 Printer
- USB Type-A to Type-B Cable
- Administrator access on PC

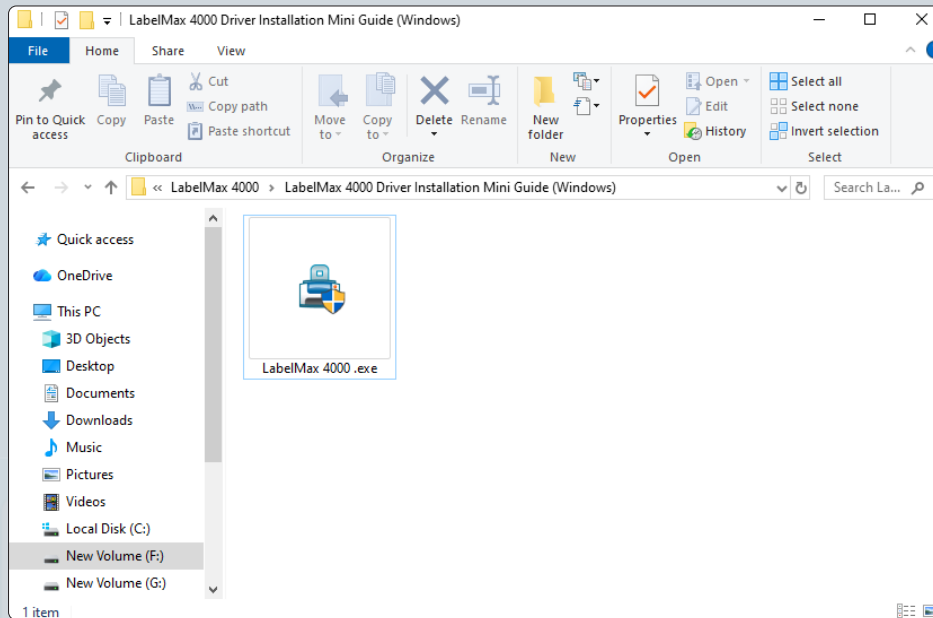

Before You Begin

- ✓ Connect USB cable properly
- ✓ Keep printer powered ON
- ✓ Close unnecessary programs

Step 1: Launch the Installer

- Locate LabelMax4000 Driver Installer on your PC
- Double-click to open the file

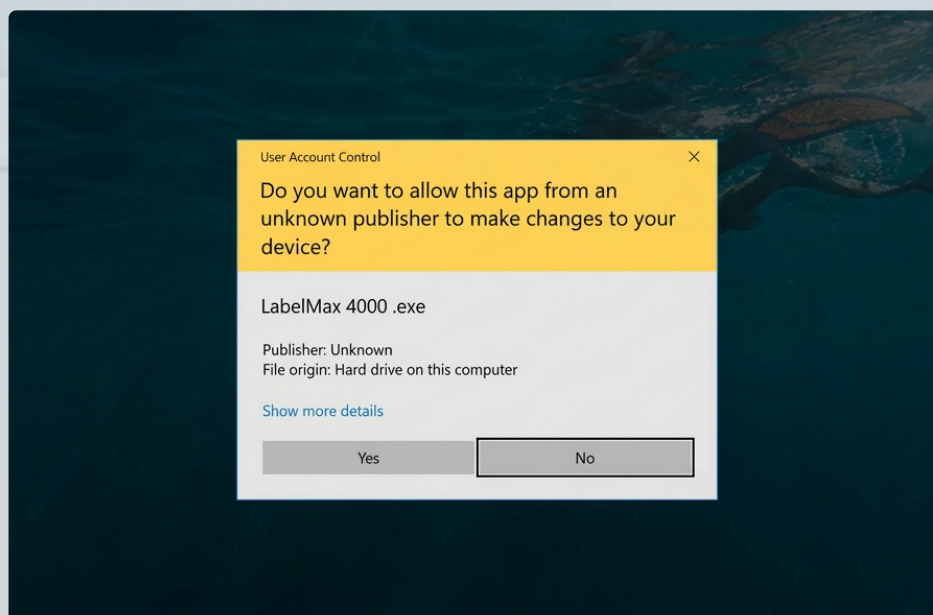

Step 2: Allow Permissions

Windows will show a security message:

“Do you want to allow this app to make changes to your device?”

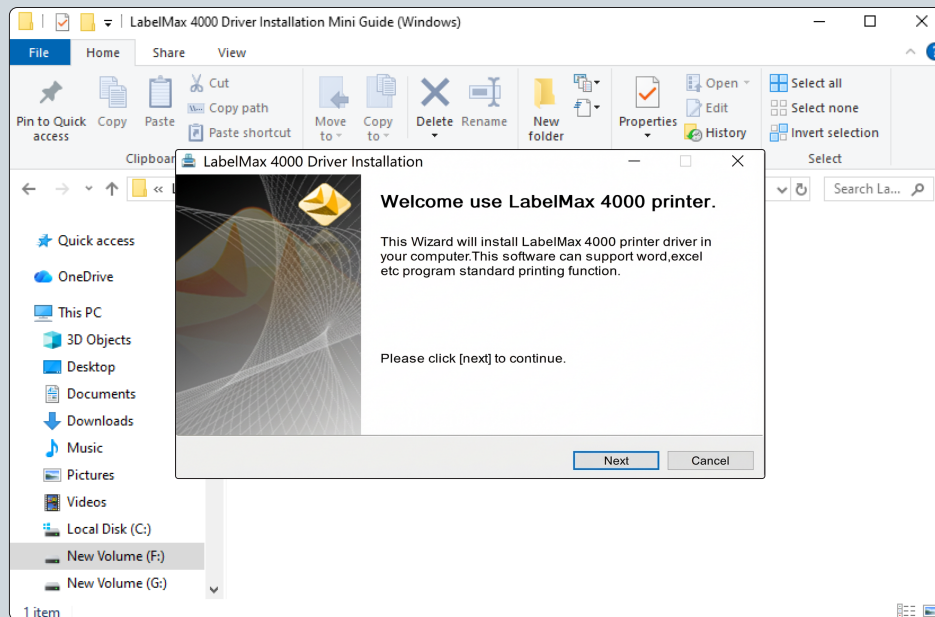

Click **YES**

This is normal for driver installation.

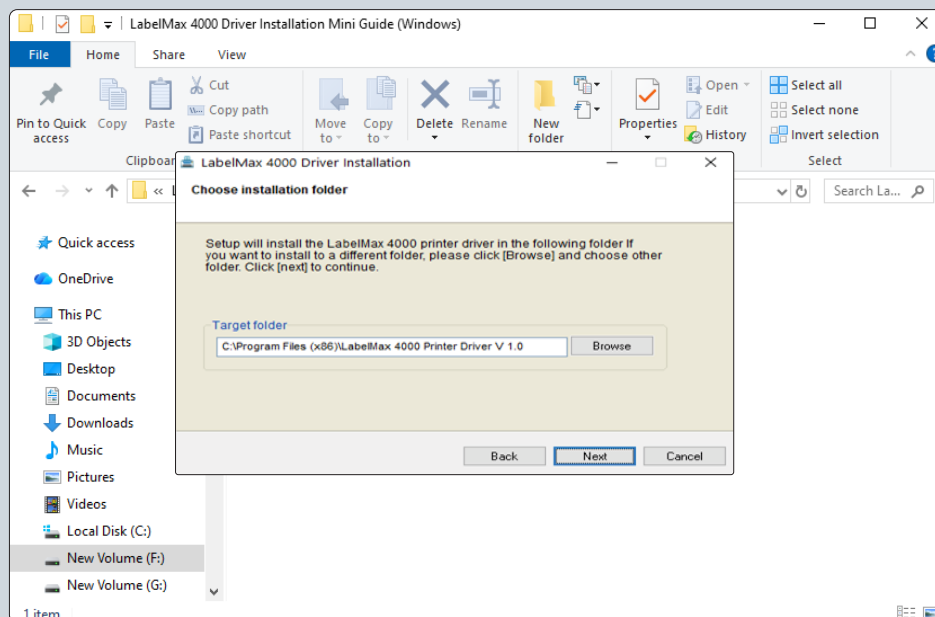

Step 3: Start Installation

- Click Next to begin setup

Step 4: Installation Location

- Default installation folder is recommended
- No changes needed
- Click Next

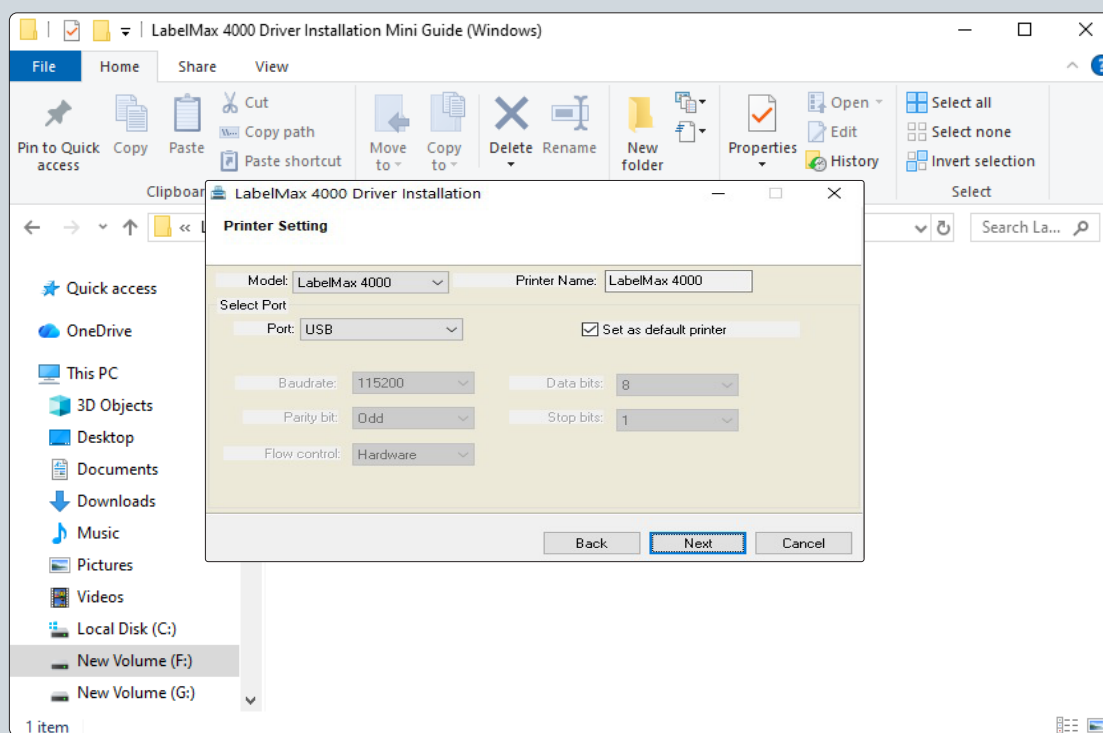

Step 5: Verify Printer Settings

Ensure the following:

- Printer Model: LabelMax 4000
- Printer Name: LabelMax 4000
- Port: USB

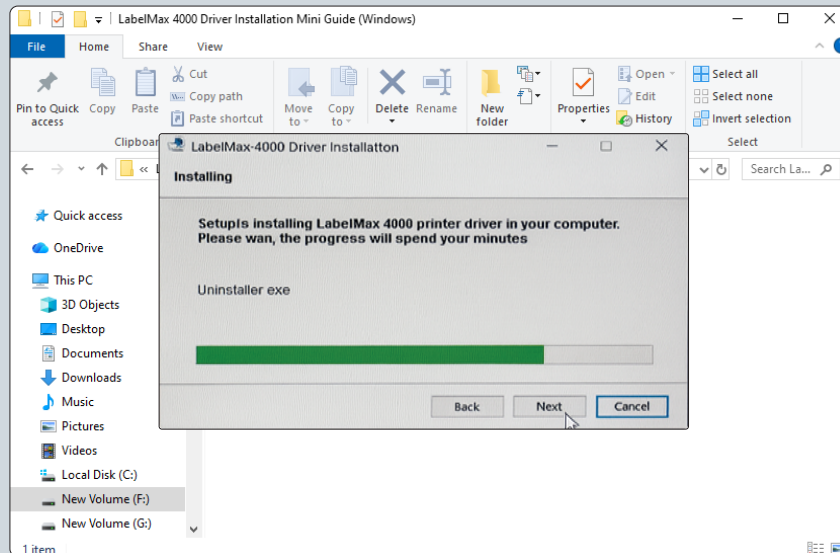

Click Next to continue.

Step 6: Installing the Driver

- Installation will begin automatically
- Takes approximately 5–10 seconds

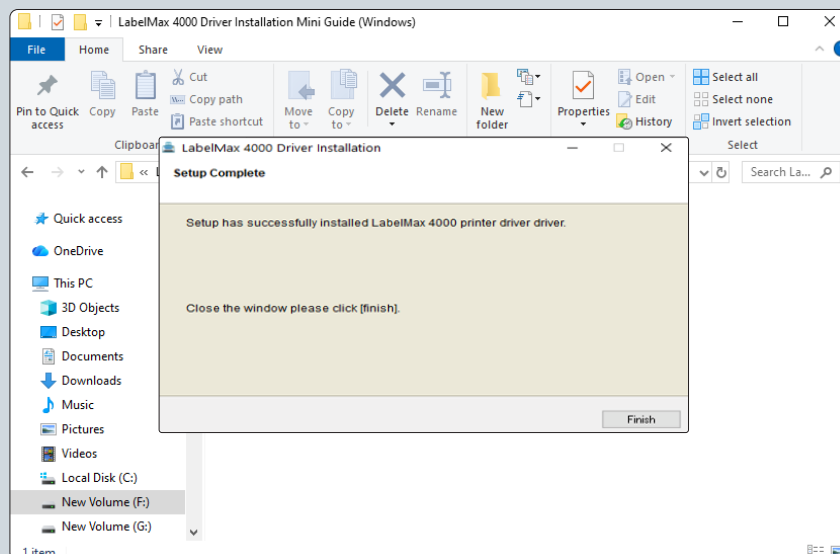

⚠ Do not close the window during installation.

Step 7: Finish Installation

- When installation is complete
- Click Finish

✅ Driver installation is now complete.

Check Driver Installation

Go to:

Control Panel → Hardware & Sound → Devices and Printers

You should see LabelMax 4000 under Printers

If Printer Is Not Visible

- Check USB cable
- Try another USB port
- Restart printer and PC

How to Perform a Test Print

1. Right-click LabelMax 4000
2. Select Printer Properties
3. Click Print Test Page

If the page prints correctly, your printer is ready to use.
